Adventure Trailer

Features

The Most Waterproof
The Most Durable
The Best Insulation
No Slip or Rot Floor
INTELLI-CORE Panels

INTELLI-CORE STRUCTURAL COMPOSITE TECHNOLOGY

Numerous advantages over traditional construction methods result in a lighter, stronger, easier to use, and longer lasting product which increases capability and productivity.

Lightweight - The lightest trailers in their class. Easy to tow, even behind utility vehicles.

Durable - Structural composite construction results in a dent resistant, stronger, and more resilient design.

Non-Conductive - Panels are constructed out of fiberglass, foam, and/or honeycomb materials.

Store Indoors or Out - Panels are waterproof, UV resistant, and built to handle the elements.

Easy to Maintain/Clean - Pressure wash inside and out. Smooth surfaces are easy to clean.

No Organic Materials = NO Mold, NO Rot, NO Mildew!

Precision Engineering - All panels, cabinetry, and storage solutions manufactured using CNC equipment for higher quality and industry leading fit and finish.

Thermal Advantage - Paneled construction gives a higher insulated product that is easy to heat/cool at a lower cost.

Easy to Graphic - Smooth, seamless paneled construction provides improved aesthetics and easy graphic application. Panels are available in many color options.

RF Transparent - Composite panels allow for radio wave transparency.

Longer Life - A CORE trailer utilizes manufacturing methods and materials that last longer reducing the frequency and need for replacement.

Easy to Repair - Damage is quickly and easily repaired at a lower cost.
